

PlanBox®

the easy to use, 100% secure, environmental friendly, sustainable and traceable solution to collect and transport all your obsolete IT assets

This ecological collection container **protects** your assets against transport damage and can be used at your (office) location to **collect** and **pack** your obsolete assets. Every **PlanBox** holds an unique **transponder** with a **battery lifetime of 30 days** to **always follow & define** where your **PlanBox** is. Once your **PlanBox** is full, you can lock the whole box with **your personal dial-lock** number and we collect (or swap) your **PlanBox**. You can **follow in detail the whereabouts at all time**. Once it has arrived at our **100% safe and secured processing center** – you will mail to **planbox@planbit.nl** your (self chosen) dial lock number so we can process / data erase all your media.

Why use the PlanBox[®]

the **easy to use**, **100% secure**, **environmentally friendly**, **sustainable** and **traceable** solution to collect and transport all your obsolete IT assets

SUSTAINABLE

The **PlanBox** is made of sustainable materials, easy to use at your site, has a **long service life** and can be **reused**

100% track & trace

Every **PlanBox** has it's own unique GPS transponder with a minimum battery life time of 30 days. **You** can follow and define it's GEO zone at **any time, any day**

Personal dial lock

Once finished you lock the **PlanBox** with a self **chosen 4 digit** number and call in the collection by **PlanBit**. You will be notified when the **PlanBox** has arrived and mail to **planbox@planbit.nl** the unlock number

100% data erased

At **PlanBit's** site all media are securely erased in accordance with **NIST 800-88** or (when failed) destroyed in accordance with **DIN 66399-3**. **PlanBit** presents the appropriate certificates

Capacity of the PlanBox®

Every **PlanBox** is a robust, lockable solution that allows you to **easily and safely** move and store your obsolete redundant IT hardware in a simple and convenient way. **No onsite data erasure necessary while having 100% control**
